Exploring Fundamentals of Microstructural Design

An exploration of:

Conversion Coatings on Non-Ferrous Metals

Introduction

Corrosion Issues for Non-ferrous Metals

What is a Conversion Coating?

Chromate Conversion

What is it?

The Process

Use Cases

Anodizing of Aluminum

What is it?

The Process

Use Cases

Zirconium/Titanium "Nano-ceramic" Conversion

What is it?

The Process

Use Cases

Silane-based Coatings

What is it?

The Process

Use Cases

Phosphate Conversion Coatings

What is it?

The Process

Use Cases

Comparison, Application, and Trends
